An Overview of REACHA work through the years	
Annexure VIII	42
Annual Accounts: 2008-09	

INTRODUCTION

Over the years REACHA has evolved as a grass-roots organization engaged in meaningful social change. Its work has entailed campaigns, workshops & seminars, execution of well defined projects from concept to completion, development of Corporate Social Responsibility (CSR) modules, training & extension, publications and now e-learning.

With minimal overhead expenses, REACHA work has today left its footprint in over 100 countries across the globe. Some of the countries that follow us avidly online are USA, UK, Canada, Australia, Norway, Germany, Brazil, Poland etc. Overall, we are reaching out to North & South America, Africa, Europe and Austral-Asia.

The year saw REACHA establish its Mumbai Center to implement the Tata Power Energy Club. This Center was ably managed by the alumni of NITIE, Mumbai and IIT Bombay. A number of College students from Mumbai volunteered to help out.

REACHA's Dehra Dun Center played an active role in taking up campaigns for a Secure India, Garbage Management as well as to educate housing societies against the eco-unfriendly practice of trash-burn. This Center played a pivotal role in delivering the Samvedna Project at Him Jyoti School in association with Tata Indicom.

With the strength and effectiveness of Information and Communication Technology (ICT) becoming more and more relevant, REACHA has started focusing on:

- developing e-learning modules
- initiating e-volunteering
- taking up e-campaigns

The Tata Tele Services Ltd (TTSL or Tata Indicom) supported Project Samvedna gave us the opportunity to harness the strength of ICT. Samvedna will now help us reach a much larger audience in times to come by utilizing the internet effectively. Our e-programmes are complementing REACHA's grass-roots work and giving it more reach and penetration as the world gets more tech savvy by the day. The Annual Report 2008-09 highlights this in more detail.

REACHA would like to sincerely appreciate all the support provided to its functioning by Manava Bharati India International School, New Delhi, under the leadership of its Director & REACHA Treasurer Capt. V.K.Pandey. The Accounts & Administration Department Team of the school has been assisting us for many years now. Our thanks go to them too.

The following were elected by consensus as the office bearers of the National Governing Board (NGB) of REACHA for the year 2008-2009:

- | | |
|--|--------------------|
| • Sri J. C. Pant (IAS Retd.) | Chairman |
| • Smt. Malati Sinha (IAS Retd.) | Vice-Chairman |
| • Sri V. P. Singh (IFS, Retd.) | Executive Director |
| • Capt. V. K. Pandey | Treasurer |
| • Dr. Pranav Pandya,
Shantikunj, Haridwar (NGO) | Member |
| • Dr. S. L. Seth | Member |
| • Sri Laxmi Narain Modi | Member |
| • Sri E. Venkatramnaya, YFA (NGO) | Member |
| • Sri A. S. Awasthi (IAS Retd.) | Member |
| • Sri Nikhil Pant | Member - Secretary |

FORMAL MEMBERSHIP

As regards formal membership of REACHA, New Delhi, the total membership strength of the association stands at 39, with the addition as Permanent Members of:

- a. Delhi Public School, Amritsar – Institutional Member and
- b. Mrs Ruchi Pant, Permanent Member

Details of REACHA activities during the past year appear in this Annual Report 2008-09 as follows:

ACTIVITIES AND PROGRAMMES

CONSOLIDATION OF www.reacha.org AS A RESOURCE CENTER

Since its launch in the year 2008, the REACHA website has gradually developed as an online repository of all our work. The wiki website represents the latest in terms of Open Source technology. Site updates are very easily done and not much training is required to maintain the site. This way we have been able to overcome one of the biggest stumbling blocks of website today – irregular updating!! Also, with the help of Google Analytics we are able to track the visitors to the website quite easily. Kindly refer Annexure I to get an in-depth assessment of how we are being viewed and followed across the globe in over 78 countries at www.reacha.org

ENERGY CLUB (refer <http://www.reacha.org/energy-clubs>)

The NDPL Energy Club was one of our unique interventions that enabled North Delhi Power Limited (A Tata Power Company) sensitize more than 2,00,000 students from 50 North Delhi School....30 of Delhi government and 20 Public Schools....on various aspects of rational use of Energy. Parents and thousands of neighbours of these children were also sensitized. The entire programme was well documented and the data collected is verifiable. REACHA handed over the programme to NDPL in November 2008. However, the real achievement of this effort has been the SUSTAINABILITY of the programme as well as its SCALING UP across the country. These are represented by:

1. NDPL Energy Club is now being carried forward by NDPL itself. As per their website the current sensitization figure is more than 3,00,000 individuals. A separate link has been created on their website at www.ndpl.com. Refer Annexure II for details
2. The parent company – Tata Power – has launched its Tata Power Energy Club (TPEC) – refer www.tatapowerenergyclub.com as a scaled up version of the NDPL Energy Club. To help them do this REACHA set up a project office in Mumbai and launched the TPEC in 2008 in 3 schools. A Report on TPEC was submitted to Tata Power in early 2009 (being circulated). Based on this the TPEC programme has been launched independently by Tata Power across the nation. REACHA is extremely grateful to Sri Anupam Sorabh (an Alumni of NITIE, Mumbai) and Sri Nitin Jain (an Alumni of IIT Bombay) for implementing TPEC in 3 Mumbai schools along with a team of dedicated Mumbai College volunteers. The team sweated day in and day out to conduct classroom training sessions, home & field visits, visits to energy exhibitions etc to deliver TPEC. The TPEC Report is a testimony to this effort.
3. The Anil Ambani lead Reliance Energy Company BSES that distributes power in South, East & West Delhi expressed a desire to partner us in developing a school based Energy Club on lines of our successful work with NDPL and Tata Power. REACHA has submitted a proposal to them to initiate such a forum in 25 schools in their distribution area. This proposal is currently under discussion.

From the above experience REACHA can feel satisfied that it initiated a school based energy conservation mission, implemented it over a period of years and then handed it over to its rightful owners, thereby institutionalizing it. The Energy Club concepts developed by REACHA are also being used elsewhere by us in projects like OnlineKHOJ and Samvedna.

A few snap-shots and highlights of TPEC are presented on the following page:

PROJECT SAMVEDNA WITH TATA TELE SERVICES LTD (TTSL) (www.samvedna.wikidot.com)

Samvedna connects school children from across cities through Information and Communication Technology (ICT) support provided by Tata Teleservices Limited (TTSL). The voice and data support from TTSL links school children of Him Jyoti School, Dehra Dun and Manava Bharati India International School, N Delhi to start with. REACHA has designed the Samvedna website and is constantly updating it as per the evolving understanding of the target children, teachers and parents.

Samvedna, as the word suggests is a humble effort to leverage the power of ICT to create a more humane, compassionate and understanding world - a crying need of the hour as all would agree. We thought the best way to do this is to work through the grassroots – schools. Samvedna will connect school children across the nation over a period of time in an effort to develop a mutual appreciation society where each individual 'reaches out' to the world to make it a better place to live. This objective would be achieved by engaging children, their parents & teachers, college volunteers and corporate executives (from TTSL to start with) in meaningful projects like:

- a. Online forums to discuss and debate issues that concern us all. Check out <http://samvedna.wikidot.com/forum:start>
- b. Samvedna Helpline...where counselling will be provided by resource experts to enable the 'seeker' to find solutions to their personal problems as well as those impacting the neighbourhood
- c. Environmental & Eco-sensitive projects....like reusing paper, energy & water conservation etc at <http://energyclub4samvedna.wikidot.com/>
- d. Kogics (www.kogics.net) - a platform that assists children, the youth and adults to hone their mental skills in math and science through innovative games at the math aerobics project site <http://mathaerobics4samvedna.wikidot.com/>
- e. Scratch....a project developed by the MIT Media Lab to encourage learning computer programming in a fun filled format at <http://scratch4samvedna.wikidot.com/>

This wiki website along with the 3 project sites has become the online platform where the dynamics of this communication between the 2 schools is on display. The Samvedna site is currently reaching an audience in more than 50 countries. TTSL has also presented Samvedna in their Newsletter of January 2009. (Refer Annexures III & IV)

REACHA submitted a half yearly report to TTSL in April 09 (being circulated). Highlights of this report are presented through snapshots below. The success of this project has convinced TTSL of its effectiveness and now Samvedna II is being scaled up to 40 schools across 20 states – 2 schools per TTSL Circle in each of these 20 states.

Samvedna Linkages are presented below

REACHA

PROJECT SAMVEDNA

TATA indicom

Energy Club Snapshots

Project KHOJ 'Aksay Urja'

Instructions to students:

- Format A has to be filled up by all students.
- Format B is to be used by students for a signature campaign with parents and neighbours. The campaign starts in week 1 and ends in week 2.
- Format C – GRC Form – is to be used for GRC. It has to be filled up by all students.
- Format D is to be used to spread the good work done by students.
- All materials should be taken back on Monday 15th/07/09.
- The Project may be presented to the school – Teacher Competition for assessment/guidance.
- The Project emphasizes the urgent need to save energy as well as report on a daily basis through simple efforts by each one of us.
- All Teacher-Communities are requested to incorporate the project work as part of their life skills education or other. Suitable marks may be allotted to students in order to motivate them.

Students may be encouraged to share lessons in order to provide best work and leadership experience.

Such savings – energy as well as paper – need to be scaled up in order to have a tangible impact on Climate Change issues. OJG seeks to involve school students across time and space in order to make a difference.

REACHA – STRATEGY FOR COUNTER TERRORISM.....POST 26/11 - THE BLACKEST DAY FOR INDIA (<http://www.reacha.org/strategy-for-counter-terrorism>)

Chairman REACHA, Lt General KK Khanna and Sri Rakesh Oberai deliberated on this episode in Dehradun & decided to stir out to make people aware of their responsibilities regarding countering this menace of terrorism. More than 30 public meetings were addressed by them in this regard & a PAMPHLET by the title of JODO BHARAT JODO DIL was circulated in these meetings, a copy of which is being circulated in the meeting today for your ready reference. Members are requested to carry this torch further. This Pamphlet has also been loaded on to the REACHA website for further propagation.

As part of this campaign the following publications were released by REACHA:

1. Safe India Campaign pamphlet JODO BHARAT JODO DIL (<http://www.reacha.org/local--files/strategy-for-counter-terrorism/safeindia.pdf>)
2. Garbage Management (<http://www.reacha.org/garbage-management>)
3. Counter terrorism for the common man (<http://www.reacha.org/local--files/strategy-for-counter-terrorism/COUNTER%20TERRORISM%20FOR%20THE%20COMMON%20MAN.doc>)
4. Handbook on security for the common man (<http://www.reacha.org/local--files/strategy-for-counter-terrorism/HANDBOOK%20ON%20SECURITY%20FOR%20THE%20COMMON%20MAN.doc>)

The latter 2 publications have been contributed by Lt Gen (ret'd) K.K Khanna PVSM AVSM (Former Commandant, Indian Military Academy - IMA). REACHA wishes to thank him for his support and knowledge sharing for a national cause.

GARBAGE DISPOSAL

REACHA spearheaded a movement in Dehradun, starting from Vasant Vihar, to prevent TRASHBURN, which is turning out to be the latest & biggest danger to the environment leading to GLOBALWARMING. The campaign started with effect from September, 2008. Unfortunately, this practice is being adopted by the safai karmcharis all over India as the easiest mode of GARBAGE DISPOSAL. The movement in Vasant Vihar, Dehradun has matured into an agreement between the Housing Cooperative Society & a Bio-Food Company to convert the bio-degradable part of the GARBAGE into compost to be made available to the members of the society at Rs. 3.50/per kg.

The smoke of TRASH BURN is poisonous for all & particularly for children's' health. The other mode of GARBAGE DISPOSAL that has been conveniently adopted by these safai karmcharis is to sweep it into the drains on both sides of the roads in the civic areas. This clogs the drains and contributes to urban flooding during the Monsoon season every year, as has been reported from Mumbai for the last few years. Therefore, GARBAGE DISPOSAL is now assuming a special significance & REACHA has taken this up with schools in its KHOJ Programme too.

SAMEER CLUBS (refer www.reacha.org/sameer-clubs)

- **DPS, Amritsar**

Delhi Public School (DPS), Amritsar has been an active partner in our SAMEER & MAITREYA Club programmes over the last 5 odd years. This relationship has now been institutionalized with DPS, Amritsar becoming one of our permanent members since 2008.

During the year 2008-09 REACHA conducted its annual counseling session with the DPS students and parents (Classes X and XII) and also conducted an Inter School Science Quiz for the middle school.

REACHA would like to thank Sri Aakash Khandelwal, Member Secretary, BEAS Educational Society (that runs this DPS) for giving it the opportunity to reach out to its children and parents. Our thanks are also due to Ms. Sangeeta Singh, Principal, DPS, Amritsar, for always remembering us and inviting our experts to guide and mentor her faculty, students and parents.

- **Him Jyoti School, Dehra Dun**

Him Jyoti School in Dehradun is a unique institution where about 151 girls from some of the most economically weak sections of Uttarakhand are provided free-ship in a boarding school. Student Management Committees (SMC's) based on our SAMEER CLUBS have been initiated in the school with full co-operation from the school management. Special thanks are due to the Principal, Mrs Tanu Nyal for initiating this effort in right earnest as also for welcoming REACHA to the institution. The Tech Mahindra Foundation's education experts visited the school and commended the concept and efforts of the SMC's.

During the Academic Session 2008-09 REACHA also invited the school to partner it along with Manava Bharati School for the innovative Samvedna Project. This project is supported by the voice and data technology from Tata Indicom (TTSL).

REACHA volunteers have also been volunteering in an honorary capacity to assist the school in its teaching-learning processes. In this regard the services of Sri Lalit Pant and Mrs Vibha Pant need special appreciation. Lalit has been taking regular Math Classes besides training the girls for various Samvedna activities. Vibha has been helping out with Computer and Art classes. This volunteering occurs on a 3-4 days per week basis.

The Management of this school has appreciated our volunteering efforts and the same have been recorded in the Minutes of the Board Meetings.

- **Manava Bharati School, New Delhi:**

REACHA assisted Manava Bharati School, N Delhi to design and deliver a unique Life Skills Programme (LSP) during the Academic Session 2008-09. This programme is based on the CBSE approach of instilling Life's coping skills in every growing child through a process of responsible caring.

The LSP initiative has been evolved to instill the following 10 Core Life Skills in every child:

10 CORE LIFE SKILLS

1. Self awareness
2. Empathy
3. Critical thinking
4. Creative thinking
5. Decision making
6. Problem solving
7. Effective communication
8. Inter-personal relationship
9. Coping with stress
10. Coping with emotions

Every child possesses an inherent aptitude & talent that needs an expression. The school seeks to provide appropriate platforms for this aspect of the child's personality to be heard. Manava Bharati has initiated LSP as part of its efforts for the holistic development of children in school. Through this programme the school seeks to instill the 10 Core Life Skills as part of a larger process of identifying the hidden potential in children.

Various activities have been designed so that every child can choose one that suits his/her aptitude. Children participate in these chosen activities every week. Over a period of time every child and his/her parent will have the opportunity to decide which co-curricular activity best suits him/her for further development. Some of these

activities are – Jazz dance, Vocal & Instrumental Music, Art, Eco Club, Soccer, Basketball, Squash, Skating etc.

Our special thanks are due to the school Principal Mrs. Bharati Pandey, as also to Sri Prashant Pandey and Ms. Shruti Pandey for welcoming REACHA efforts.

SQUASH DEVELOPMENT PROGRAMME

(refer www.reacha.org/squash-development-programme)

Since 2008 REACHA has been involved in the design and implementation of a unique Squash Development Programme (SDP) as part of its endeavor to develop children holistically. Squash is an amazing lifestyle sport that gives total mind-body fitness to players in minimum time. It can be a great tool to get kids disciplined and better organized. The Forbes Magazine has also listed Squash as the “Healthiest Sport”

SDP was initiated through a Summer Camp 08. Team SDP is a partnership between Dr. B.I.Singh (Sports Medicine Expert & Convenor of Health Services, Commonwealth Games 2010; Current National Men's Over 55 Squash Champion), Ritwik Bhattacharya (5 times National Champion) and REACHA.

Some of the schools participating in our trainings are:

1. Modern School, Vasant Vihar
2. Mothers International School
3. Modern School, Barakhamba Road
4. IIT Delhi
5. Manava Bharati India International School, Panchsheel Park
6. Shri Ram School, Aravali
7. Ahlcon International School, Mayur Vihar Phase 1
8. Amity, NOIDA
9. Lotus Valley Int. School, Greater NOIDA
10. D.P.S, Vasant Vihar
11. G D Goenka World School, Sohna, Haryana
12. Mayo College, Ajmer
13. D.P.S, Vasant Vihar
14. Sanskriti School, Chankyapuri
15. Vasant Valley School, Vasant Vihar
16. DPS, RK Puram
17. DPS, Vasant Kunj
18. DPS, Faridabad

SDP runs its centres at DDA Complexes – Siri Fort, Saket, Vasant Kunj and Yamuna Sports Complexes. It is also in talks with the Kendriya Vidyalaya Sangathan (KVS)

Ahlcon International School, Mayur Vihar, Delhi and Modern School, Barakhamba Road, N Delhi to set up training academies at their respective campuses.

SDP played a major role in the organisation of the National Level DDA Open Squash Tournament 2009 for the Lt. Governors Cup in Delhi. In this event a record 500+ entries were received from across the country and Malaysia.

The most promising Squash player from UP, Sandeep Yadav was presented an entire Squash Kit (of the world renowned company HEAD) by REACHA at a cost of Rs. 12,000/. Sandeep is a 16 year old boy from Allahabad, UP. He comes from a low income family but possesses tremendous potential if adequately supported. The REACHA sponsorship was given to him after he won the UP Squash Ranking Tournament 2009 at Allahabad – both the Men's Open and the Under 19 Boys titles.

SDP currently manages 2 squash websites as part of its efforts to promote this great game:

1. www.squash-northindia.org, and
2. www.sdpsquash.blogspot.com

The former site is in association with the Office of the North India Junior Development Officer under SRFI (Squash Rackets Federation of India). This site is currently being viewed in over 100 countries across the globe and is playing a major role in promoting the game globally. Refer Annexure V

SDP, since 2008 till date has trained more than 150 students from Manava Bharati School. These children board a bus from the school 3 days a week during school hours and visit DDA Siri Fort Sports Complex. Here, SDP trained coaches guide them as well as conduct tournaments for them. Squash rackets, balls and t-shirts are provided to these children by SDP. This is perhaps the best way to take the game to the masses. REACHA would like to thank the Principal, Mrs Bharati Pandey and the Management of Manava Bharati School for supporting the SDP initiative whole-heartedly. SDP will be replicating this model in more DDA Centres as well as schools in coming days leading up to Commonwealth Games 2010.

SDP played a pivotal role in organising the Grudge Cup 09 at DDA Saket Sports Complex on 23 May 09 to celebrate World Squash Day. This Day is part of the global efforts to popularize Squash and enable it to become an Olympic Sport. About 75 men, women and children took part in this fun filled event. The organisers had minimum time to get this event organised. Against all expectations we had 74 players participating though a maximum of 50 had been planned. Such was the excitement!! Online registrations.....the first of its kind for a tournament in North India...proved very popular. 30 odd entries came through this route.

Squash 2016 t-shirts proved extremely popular. About 100 had been printed...these were distributed to all participants, admin staff, DDA officials and coaches. Fitness First

delivered 70 bags with Bag, t shirts and a water bottle each along with a one day free pass for the gym. We sincerely hope such events showcase the popularity of squash and strengthen its bid for inclusion as an Olympic sport.

The world renowned Squash racket company Prince provided rackets, kit bags, squash shoes and racket strings to 5 promising SDP kids and 5 of its Coaches as part of a 1 year sponsorship. The parents of these children were also invited for the Award Ceremony that was conducted at the DDA Siri Fort Sports Complex, N Delhi.

SDP Elite Coaches Mukhtiar Ali and Gautam Sood were sponsored for the ASF (Asian Squash Federation) Level 1 training camp in Kolkota in December 09. Both are now ASF Level 1 Certified Coaches. This Certification has improved the quality of coaching being imparted by SDP.

REACHA volunteers played an active role in the Save Siri Fort Campaign. The DDA Siri Fort Sports Complex has been bludgeoned by the DDA engineers in the name of renovating it for the upcoming Common Wealth Games 2010. Hundred's of trees were felled by the DDA to make a new stadium and a car parking when there was no need for this. They also planned to shut down the complex for more than a year without any genuine reason. A number of concerned members then got together and launched a massive campaign to stop the rampaging engineers. A PIL was also filed in the Supreme Court of India. Pro-active intervention helped to reduce the destruction and the DDA now has to keep everybody informed about its plans. The Sports facilities are now open and their renovation is being executed in a phased manner without disturbing the training of children in squash, tennis etc.

REACHA would like to acknowledge the support and co-operation of Dr B.I.Singh, the DDA under Brig Pandit & Col Maheshwari, the Delhi Squash Association (DSA) under the able guidance of Sri Vijay Goel, President, DSA, Ritwik Bhattacharya and the Squash Racket Companies Head AG of Austria & Prince Inc. of USA for developing and implementing various SDP activities for kids.

BRAJ PROJECT

The Braj Foundation (BF) expressed a desire to replicate the successful NDPL Energy Club model for schools in the Braj Region in UP. Intensive discussions were held with the BF Volunteers and a project has been evolved. In this regard REACHA conducted a Workshop at Mathura in March 09 where more than 20 local schools attended the session. REACHA is keen to pass its school level expertise in energy conservation to these schools in association with the Braj and Paarth Foundations. Our sincere thanks to Sri Raghav Mittal, Co-ordinator, Braj Foundation, for providing us the opportunity to share our work.

KAASHA VIDYASHILP LEARNING CENTER, GHAZIABAD (refer www.reacha.org/kvlc-learning-center)

The BEL Officers Ladies Club (BOLC) has been running the “Kaasha Vidyashilp Learning Center” (KVLC) since December 2000. The Center has become an Institutional Member of REACHA since October 2004. Since then REACHA provides office support to the Center as and when it is required as part of its Vidya – Daan Scholarship Programme..

During the last year KVLC carried on with its commendable literacy programme. REACHA volunteers have been assisting the Center in a number of ways – through samay-daan as well as shram-daan.

“VIDYA-DAAN” SCHOLARSHIPS (refer www.reacha.org/vidya-daan-scholarships)

The Vidya-daan Scholarship today provides educational support to children from the weaker sections of the society. The scholarship is in the form of financial support in the following areas:-

- School stationary and study books
- School uniforms
- Excursion trips
- Basic Office support to Institutional Members like KVLC

OnlineKHOJ (refer www.reacha.org/khoj-the-search)

A unique onlineKHOJ programme was launched by REACHA in Oct 06. Gradually, this project has taken firm roots – as on date more than 40,000 school children from 135+ schools in 20 States of India are its current members. The programme is hosted entirely through www.reacha.org.

OnlineKHOJ has also become the flagship programme for REACHA. All our projects like Samvedna, Energy Clubs, Squash Development etc have been brought under one umbrella to enable better co-ordination and delivery.

GOOGLE ANALYTICS REPORT

REACHA registered with Google Analytics (GA) – an online tool to track our global reach. At present we have registered the following sites on GA:

- a. www.maitreya.wikidot.com (now www.reacha.org)
- b. www.maitreya4all.blogspot.com
- c. www.samvedna.wikidot.com
- d. www.energyclub4samvedna.wikidot.com
- e. www.scratch4samvedna.wikidot.com
- f. www.mathaerobics4samvedna.wikidot.com
- g. www.delhincrsquash.blogspot.com (now www.squash-northindia.org)
- h. www.sdpsquash.blogspot.com

With the help of this facility we are able to track how REACHA's work on the ground is able to quietly transcend the barriers of space. The internet is today the most powerful tool for organizations like ours and with the help of GA we can further plan and decide on our future activities based on the detailed GA reports.

Asnapshot of the GA front-page:

- AT BOC - The Maitreya Club at BEL Officers Club (BOC) has now been institutionalized. The BOC Committee manages the entire forum through interested ladies/mothers. BEL employees take avid interest through volunteering and time sharing.

This has again been a project that was initiated by REACHA some 6-7 years ago. After successfully developing it for 4-5 years we handed it over to the BEL Officers Club Management Committee, thereby institutionalizing this module for child development. It is heartening to note that a number of parents have now started playing with the BEL Colony children in the colony central park. Credit for this goes to the Maitreya Club movement that has now impacted a number of families in a very positive way.

- At ATS Greens II, NOIDA - A Maitreya Club was initiated at ATS Greens, Sector 52,

NOIDA on 26th January 2008 through an invigorating Family Quiz. Subsequent to this the local RWA has initiated a Squash training programme after a Squash Clinic was conducted here in Aug 08.

THE REACHA – E-VOLUNTEERING PROGRAMME (refer www.reacha.org/college-volunteers and www.reacha.org/corporate-executives)

A number of College students and corporate executives are now part of the e-Volunteering programme of REACHA. Here, volunteers share their time and talent by preparing quizzes that feed our onlineKHOJ programme. This way the volunteer does not have to physically be present at our workshops, sessions etc. The e—Volunteering programme is gaining a lot of popularity since it enable the activist in a youngster to find a 'voice' without jeopardizing their college/corporate commitments.

Some of the volunteers are from:

- IMT Ghaziabad
- IIM Calcutta
- IIT Delhi
- IIT Mumbai
- Sharda University, Greater Noida
- National Law School University, Bangaore
- Corporate Executives etc
- School students

It is extremely heartening to note that a lot of school students who had taken part in our SAMEER Club programme are today active e-volunteers with us – from their college campuses as well as jobs. These volunteers are helping to mentor their juniors in school through Samvedna Forums etc. We would like to make special mention of some of these mentors as follows:

1. Nitin Gupta – IIT Delhi (ex-Manavite)
2. Arpit Bhandari – IIT Delhi/IIM Calcutta (ex-Manavite)
3. Mohit Gupta – Indraprastha University (ex-Manavite)
4. Pramod Kumar – IIT Madras

NGO INTERNSHIP PROGRAMME (NIP) WITH SHARDA UNIVERSITY

A unique NIP programme has been initiated in partnership with Sharda University, Greater NOIDA and 12 other NGO's. As part of this programme, Sharda University students & faculty from its various departments will be volunteering in on-going projects at these partner NGO. REACHA will seek to co-ordinate and monitor the faculty internship part of the programme. The names of these NGO's are as follows:

1. Him Jyoti Foundation (<http://www.himjyotischool.org/>)

2. BCF (<http://www.bcfindia.org/>)
3. ADR India (<http://www.adrindia.org/>)
4. CBGA (<http://www.cbgaindia.org/>)
5. Aroh Foundation (<http://www.aroh.in/>)
6. Udayan Care (<http://www.udayancare.org/>)
7. Braj Foundation (<http://www.brajfoundation.org/>)
8. Ray Welfare Trust (<http://www.raywelfaretrust.org/>)
9. Om Foundation (<http://omfoundation.in/>)
10. Shehari Vikas Manch
11. REACHA (<http://www.reacha.org/>)
12. National Association for the Blind

REACHA FEATURED BY IIM CALCUTTA (http://iimc-intaglio.com/featured_ngos_2.html)

IIM Calcutta featured REACHA as a pioneering grassroots NGO as part of its Annual International B-School Festival – Intaglio 2008. Refer Annexure VI.

REACHA REGISTERS WITH THE PLANNING COMMISSION OF INDIA & THE POPULAR NGO WEBSITE www.karmayog.org:

The Planning Commission of India has initiated an online NGO Partnership System at <http://www.ngo.india.gov.in/>. All VOs / NGO's are requested to Sign Up (one time) with this Portal to help create a data base of existing VO's / NGO's and to access information on various schemes of the participating Ministries/ Departments/ Government Bodies open for grants. Later the registered organisations will also be able to apply online for government grants to the participating Ministries/Departments/Government Bodies and track the status of their applications through this system. This an innovative e-Governance initiative by Government of India which would assist voluntary efforts in a transparent manner based on merit and accountability. It is proposed that once an NGO project is accepted and approved, the relevant funds would be directly credited to the bank account of the NGO through ECS (Electronic Clearing System).

The Karmayog portal is a global platform for NGO's to share and contribute their work. We have registered with this portal and our profile is available through this platform at <http://www.karmayog.org/nonprofits/profiles/profiledis.asp?r=240&id=14446>. REACHA hopes to reach out to other like-minded organizations through this network. Most NGO's that have partnered us in the NIP programme came in contact with us through this website.

EXEMPTION U/S 80G & SECTION 10 23(C)

We currently have an exemption U/S 80G of the IT Act valid till March 2010. Later in 2009/early 2010 we shall be filing our renewal application for the same.

The REACHA application for 100% exemption u/s Section 10 (23 c) of the IT Act was not accepted by the concerned IT authorities. We have requested for a review from higher authorities in this regard and are hopeful for a positive feedback. During the filing of our review we prepared a table highlighting REACHA work over the years. Refer Annexure VII

REACHA PROJECT OFFICE TRAINING WORK

The REACHA Project Office has been functioning from C-32, 1st Floor, Chandernagar, Ghaziabad since 2005. A team of 3 dedicated volunteers are actively involved in project work from this office. They have been internally trained in office filing work/computer & internet/Hindi typing/office accounting/photography/field-work/event & workshop management etc. Volunteers have been regularly sent to various workshops as part of their training and sensitization process.

These volunteers have also played a critical role in the delivery of the SDP programme in schools. They, along with the SDP team of Squash Coaches are in constant touch with school authorities, teachers and parents to ensure the most effective delivery of the SDP Squash programme.

FINANCES

- A new Savings Bank Account was opened with Axis Bank, Malviya Nagar Branch, N Delhi during the Financial Year 2009-10 since there was an urgent need to have an online account. Our existing bankers Canara Bank refused to make our Canara Bank, Malviya Nagar account online as per their rules that joint accounts cannot be made operational online.
- There was a balance of Rs. 21,328.50 in the Savings Bank Account of REACHA with Canara Bank, Diplomatic Enclave, at the close of the Financial Year 2008-09
- There was a balance of Rs. 3,67,292.89 in the Savings Bank Account of REACHA with Canara Bank, Malviya Nagar, at the close of the Financial Year 2008-09
- There was a balance of Rs. 4,692.00 in the Savings Bank Account of REACHA with Canara Bank, Dehra Dun, at the close of the Financial Year 2008-09
- REACHA registered with the online portal www.paypal.com in order to garner contributions from a global community of well wishers. Donations received from this site will be credited directly to our new Axis Bank Account. More than Rs. 15,000.00 have been received by us so far in Financial Year 2009-10 through well wishers from America – Sri Anand Vyas (US\$ 250) & Sri Muneesh Batra (US\$ 100). Our thanks to them.
- Donations:

- Sri J.C.Pant donated a sum of Rs. 1,00,000.00
- Sri Lalit Pant donated a sum of Rs. 50,000.00
- Sri Nikhil Pant donated a sum of Rs. 50,000.00
- Sri Laxmi Narain Modi donated Rs 5,000.00
- Sri Aakash Khandelwal on behalf of Delhi Public School, Amritsar – Rs. 5,000.00 as Institutional Membership fee
- Smt Ruchi Pant – Rs. 5,000.00 as Membership Fee. She also actively volunteered for Samvedna and NIP Programmes
- The Receipt and Payment Statement, Balance Sheet and Income & Expenditure Statement for the year ending 31st March 2009 are enclosed as Annexure VIII .
- We thank Manava Bharati School once again for getting our accounts audited by the school auditor. The Audit fee of Rs. 22,060.00 has been contributed by the School.
- REACHA Investment are as follows:

Sl.No.	Certificate No. & Value Date	Amount of Investment	Maturity Date	Maturity Amount	Remarks
1.	62011; 09/07/2004	10,00,000.00	09/07/2010	10,00,000.00	GOVERNMENT OF INDIA 8% SAVINGS (Taxable) BONDS 2003
2.	29442; 29/07/2004	5,00,000.00	29/07/2010	8,00,500.00	GOVERNMENT OF INDIA 8% SAVINGS (Taxable) BONDS 2003
3.	10/05/2008	1,08,814.00	09/04/2011	1,40,010.00	KDR with Canara Bank
4.	11/12/2007	2,00,000	10/11/2011	2,57,460.00	KDR with Canara Bank

The year 2008-09 has been a momentous one in the recognition and spread of our work. It is heartening to know that our tireless efforts are making a genuine difference - making this world a better place for one and all.

I would like to thank the members of REACHA, office bearers of the NGB, our well-wishers, donors and all volunteers for their co-operation & support throughout the year.

J.C. PANT
Chairman, REACHA

NDPL Energy Club Press Releases & Online publication on NDPL website

The screenshot shows the NDPL website interface. At the top left, there is a search bar and navigation links for Home, Sitemap, and Press Release. The main content area features a news article titled "Launch of 2nd Year of E CLUBS" dated DEC 15 2005. The article discusses the launch of Energy Conservation Clubs in North Delhi, mentioning the presence of Shri Arvinder Singh Lovely, Hon'ble Minister of Education, GoNCTD and Shri Haroon Yusuf, Hon'ble Minister for Power & Transport, GoNCTD, 2005. The article also mentions that the NDPL Energy Club was started in 2004 with the objective of creating active energy conservation ambassadors.

The screenshot shows the right-hand side of the NDPL website. It features a sidebar with navigation links: "Associated Sites", "Scheduled Outages", "Awards & Recognitions", "Helpline Numbers", and "SMS Alert". The main content area contains text about the NDPL Energy Club, stating that it now covers more than 3000 students during the first year and will now widen its scope to include subjects like water harvesting, environment and health sciences, and other related issues. It also mentions that the club has partnered with REACHA, a voluntary organization for this project. Further down, it states that the NDPL Energy Club will now cover a total of 25 schools represented by 10 Government schools, and the company hopes to cover more than 12000 children this year under this project. The initiative has also drawn praise from the Ministry of Environment, Delhi Government.

Samvedna: A snapshot from the TTSL Newsletter of Jan09

TTSL believes that Information and Communication Technology hold the key to bridging the divide between the privileged few and the not-so-privileged many. Project Samvedna, a joint initiative between TTSL and

REACHA, proposes to bridge this gap by sowing the seeds of harmony and knowledge by using Information and Communication Technology tools to their optimum.

As the word suggests, *Samvedna* is a humble effort to leverage the power of ICT (provided by TTSL through data-Internet and voice-telephone support) to create a more humane, compassionate and understanding world, a crying need of the hour. The best way to do this is to work through the grassroots—schools to be precise. Samvedna will connect school-children across the nation over a period of time in an effort to develop a ‘mutual appreciation society’—where each individual reaches out to the world to make it a better place to live in.

In the pilot project that is already up and running, we have identified REACHA—an NGO registered under the Societies Registration Act—as our implementing partner. Together, the two organizations identified two schools to ‘wire up’ in the pilot phase—Manava Bharati School in Delhi and Himjyoti School in Dehradun. While TTSL is the technology partner, providing data and voice connectivity, REACHA is monitoring the project at the ground level. The project seeks to create synergies between school systems (which will function as centers of child development), teachers (who will act as change agents), students (who will be instrumental in bringing about a social change by persuading the parents, neighbours and peers to consider themselves true citizens and equal partners in the development of the country).

Children from Him Jyoti and Manava Bharati School interact on the Samvedna platform

We aim to develop meaningful projects like:

- Online forums to discuss and debate issues that concern the society at large;
- These groups will pursue joint projects on the environment;
- Through the Kogics platform, students and the youth can polish their mathematical and science skills;
- Scratch—A project developed by MIT Media Labs to encourage the learning of computer programming options in a fun-filled format; and
- Samvedna Helpline—Provided by Tata Indicom, this will be used for extending counseling services to students. The guidance will be provided by experts who will enable the ‘seeker’ to find solutions to their personal problems, as well as those that impact his neighborhood.

The website is www.samvedna.wikidot.com, through which both schools are interacting. The website contains details about the project, the partners, various forums, counseling services, etc. A helpline has already been launched to assist parents, teachers and students to get advice from our counseling experts through the medium of Tata Walky. Desirous individuals can call on +91 9268161053 from 0800 to 0900 (Monday to Friday). The Samvedna Helpline will assist in:

- Exam stress management;
- Career counseling support;
- Co-curricular activity planning;
- Parenting issues;
- Exploring teaching-learning processes in the classroom situation;
- Dealing with stress & anxiety
- Life Skills inculcation; and
- Assisting children (with their parents) to discover their true hidden potential and nurturing it for a noble cause.

Partnering NGOs

REACHA - a Delhi based NGO working in the area of Research and Extension Association for Conservation Horticulture and Agro-forestry

Delhi based voluntary organization promoting community interests in a collective manner through Community Based Organizations

REACHA was conceptualized in 1992 by a group of conscientious bureaucrats, technocrats, scientists and educationists who felt it is necessary to create an institution that could 'reach-out' to the masses and enable them to empower themselves with knowledge, know-how and the will to bring about positive changes in their lives. It began to facilitate the effective implementation of many government programs - mainly in the domain of agriculture, rural development, health & family welfare, and education.

Important initiatives under REACHA

- **Energy Club** - To sensitize school children of an impressionable age (Classes VI - VIII) in schools, on issues relating to energy, alternate resources, Indian Heritage and Citizens' Duties and Rights that need to be addressed immediately. NDPL ENERGY CLUB is an endeavor in this direction by NDPL (North Delhi Power Ltd). This initiative is
